Summary

I am a 3rd year student of information systems engineering at Sakarya University. I have an interest in frontend, so I develop projects with javascript and react. My effective communication with my teammates, my problem-solving skills and leadership qualities come to the fore. I love to study and research new expressions I hear. My biggest goal is to benefit people and make their lives easier.

RELEVANT SKILLS

- Frontend web development
- Html5-Css3-JavaScript
React-Jquery-Scss-
Bootstrap5-Tailwindcss-git

PROJECTS AND WORK EXPERIENCE

- e-commerce web site
- my portfolio web site
- dormitory web site
- driving school web site
- UAV community web site
